Account Login Guidance

STEP 1: Log in to Your Account

- If you are a new user, select Create Account, but if you are an existing user, enter your email address and password and click Log In.

- If we do not recognize your account, you will see a message asking you to try again in case your login credentials were misspelled.
• If we still do not recognize your account, this may be tied to the recent changes to our sign-in process. You will be prompted to go to our original login page instead of the screen you are on. **Click Legacy Login** to be taken there.

• If you are taken to the Legacy Login page, enter your **User ID** and **Password** and click **LOGIN**.
• **Note:**
  - Your User ID may or may not be your email address.
  - During the login process, you will be required to verify your email address to finish updating your account. You must have access to the email account for the email address you provide in order to complete this verification.

**STEP 2: Confirm Your Email Address**

• You may be prompted to confirm that the email address associated with your account is correct.
• If email address is correct, select **Yes, Continue**.
o Note: If the email address you enter is also associated with the account of another user, you may be asked to enter a new email address and password that you would like to use for the account and to click Submit.

• If email address is incorrect, select No, Continue.
You will then be prompted to enter an email address and password that you would like to use for the account and to click **Submit**.

**Note:**
- If the email address you enter is already associated with the account of another user, you will be asked to enter a new email address.

If you made any email or password updates, you will see on-screen confirmation. Select **Yes**, **Continue**.
• You will see on-screen confirmation that your email address has been verified. You may click Go to My Account to access your MyProStart account.
